Aery

Our new refills have landed and we couldn't be more excited. You can now stock our best-selling diffusers, hand and body washes and bath salts alongside our gorgeous new eco refill pouches.

Embrace sustainable living without compromising on life's little luxuries!

Give new life to your empty Aery diffuser bottles, hand wash bottles and bath salt jars. Both an economical and sustainable solution to our home fragrance and bath & body collections. The new pouches are made with 100% recyclable materials whilst being significantly lighter than glass. Not only do they take up less space when storing and shipping but they use far less energy when producing, meaning a greatly reduced carbon footprint.

Plus we are super excited to introduce two new Botanical fragrances;
Tomato Leaf (Heirloom Vines & Fresh Grass with Lime essential oils)
Magnolia Blush (Tropical Magnolia & Hibiscus with Cedarwood essential oil)
see page 52 to 56.

Good for you and better for the planet.

Enjoy!

ECO REFILLS

COST
EFFECTIVE

Refill, Reuse, Repeat.

Let's create a more sustainable world.

Our pouches have been designed to leave less of a carbon footprint. Check locally or recycle at larger stores.

Happy Space.

Fragrance Strength - Strong

Top notes - Bergamot

Middle notes - Rose, Geranium, Jasmine

Base notes - Patchouli, Sandalwood, Cedarwood, Amber

Replacement *Diffuser Reeds.*

Over time natural rattan reeds in diffusers can become clogged with oil, which reduces their effectiveness at diffusing fragrance into the room. Simply refresh with new ones. Our reeds are 100% biodegradable.

30 Replacement Reeds

MEET THE MAKERS

We believe wellbeing starts in the home.

When we develop fragrances, wellbeing is always at its core.

It's our mission to bring you feel-good quality fragrance for you and your home. Allowing you to wind down the right way, through life's simple pleasures.

FOUNDERS DAVE & MAT

Dave Heffernan Managing Director

Mat Thomas Creative Director

Aery Our Story.

Our journey began back in 2018 born from a love of wellbeing & the planet. We wanted to create something that was completely immersive and, with purpose. Inspired by the multi-sensory aspect of creating fragranced products it has led us to create our signature collections you've grown to fall in love with.

2022 saw us open our own factory and begin production ourselves. Made in the heart of Bristol with our lovely team of candle experts! This was a super proud moment for us that has allowed us to produce as sustainably as we can. Our factory, warehousing and office are also solar powered.

Made using 100% plant-based naturally derived soy wax and carrier oils that are free from Paraffin, Palm Oils & GMOs, all of our products are vegan & cruelty-free as are the materials we use to make them! Another way in which we strive to be as sustainable as we can is by taking care when developing our packaging. That's why all of our candles and diffusers are completely plastic-free & recyclable and our deliveries are made using a carbon neutral carrier.

Good for you. Better for the planet.

HAND MADE WITH LOVE

Happiness Guarantee.

We are committed to providing you with a 100% Happiness Guarantee from start to finish.

We want you to walk away with that light and Aery feeling, every time.

If you're not 100% happy with our products or service for any reason, please do let us know and we will do whatever we can to make it right.

Remember to include your order number if you can, and any photos if need be.

We encourage our customers to reach out with anything from a special request (we'll see what we can do!), order updates, faults or even feedback on a fragrance. So simply pop us an email at sales@aeryliving.com or give us a call and our team will be happy to help wherever we can.

We love hearing your feedback!

*"Fragrance makes
us dream"*

François Nars

Our Candles.

We use 100% plant-based sustainable and deforestation-free soy wax to make all our candles.

Free from Paraffin, GMO and Palm Oil meaning it's renewable and biodegradable. Along with this, we use lead-free cotton wicks so you can enjoy a cleaner and longer-lasting burn with all of your Aery candles.

Our Fragrances.

We've worked hard on developing the 5-star fragrances you've grown to love! Combining the best of Science & Nature to craft our unique fragrance blends using naturally derived essential oils and non-toxic fragrance oils to create our distinct range of scents.

Essential oils offer known wellbeing benefits through different applications. We use these carefully with consideration for the environment so you can experience the power of Aromatherapy at home.

Fragrance oils offer a powerful scent throw and complexity. From an environmental standpoint, they can in fact be better for the planet avoiding mass farming of certain plants and flowers. Blending the best of both essential oils and non-toxic fragrance oils gives us an opportunity to create the ultimate feel-good aromatherapy experience throughout our collections.

Vegan & Cruelty-Free.

We're proud to say all our products are Vegan and Cruelty-Free! Giving you peace of mind that they do not contain any beeswax, animal derivatives and are not tested on animals.

Our manufacturing, offices and warehousing operate with zero waste to landfill.

- We recycle as much waste material as possible
- We avoid using plastic wherever possible or practical to do so
- We use a biodegradable pallet shrink wrap
- We use paper packing tape and paper void fill instead of plastic

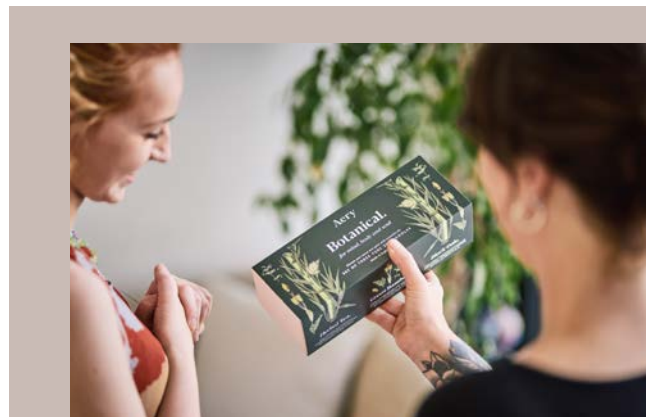

RE-PURPOSE OUR VESSELS

Over 50,000 Trees Planted.

For the e-commerce side of the brand, we plant one tree for every product sold.

Partnering with Ecologi has allowed us to plant over 50k trees! As a business offsetting our carbon is one way we can give back.

Trees are crucial in helping prevent ecological collapse. One of the best ways we can help tackle the climate crisis is to plant trees.

OUR ECO PACKAGING.

Our packaging is either FSC, responsibly sourced or part/fully recycled content and is all fully recyclable.

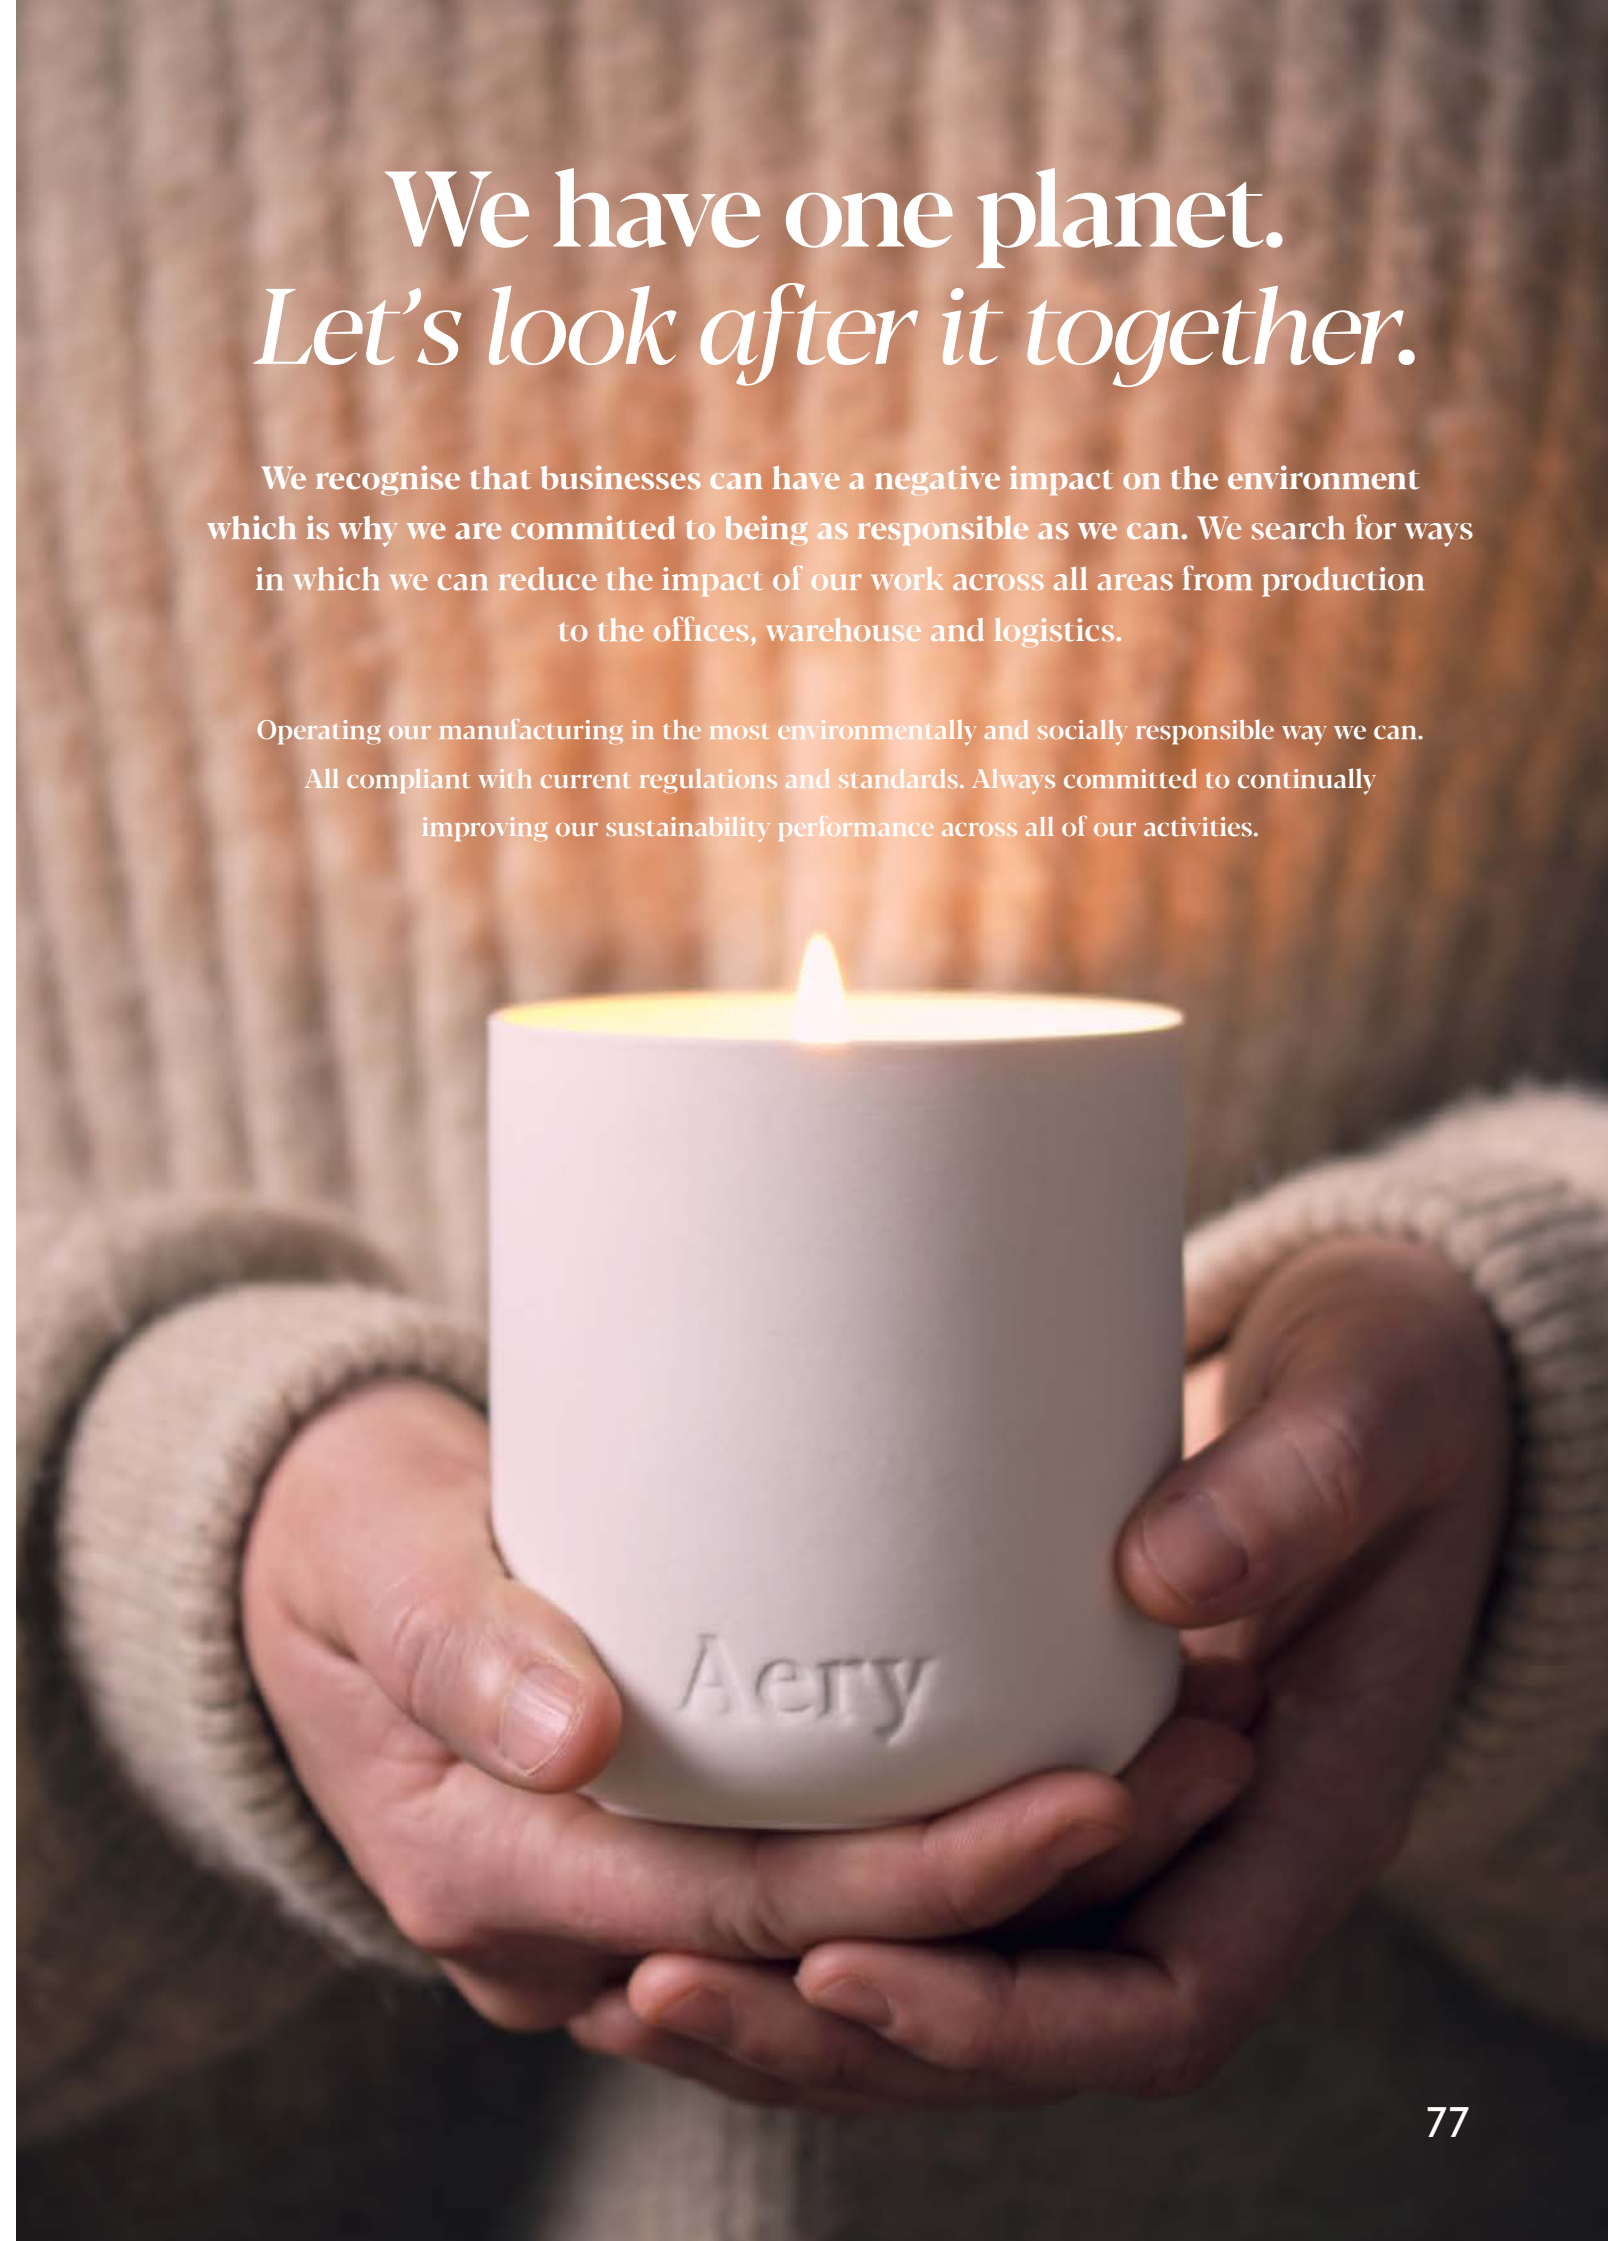

- We print using non-toxic plant-based inks with no harsh chemicals.
- We use 100% recycled shipping materials.

We have one planet. *Let's look after it together.*

We recognise that businesses can have a negative impact on the environment which is why we are committed to being as responsible as we can. We search for ways in which we can reduce the impact of our work across all areas from production to the offices, warehouse and logistics.

Operating our manufacturing in the most environmentally and socially responsible way we can.

All compliant with current regulations and standards. Always committed to continually improving our sustainability performance across all of our activities.
