Insider tips: Trim your wicks to 1/4" before each lighting for an even and clean burn. Once the wax has pooled to the edges of the vessel, extinguish your wick with our candle snuffer.

How to REPURPOSE

1. Place the used vessel in the freezer overnight.
 2. Once frozen, lightly tap the vessel on a soft surface until the wax pops out.
 3. Using a utensil and a soft cloth, remove any remaining wax, wick, or glue dot.
- Enjoy!
