Our exquisite scents are born from rare, globally sourced ingredients of the highest quality and are rooted in our clean-burning, proprietary coconut wax blend—a first of its kind.

Our fragrances, hand-poured in California with hand-set labels and 100% natural wicks, are encased in ornate packaging, designed in-house. These vessels serve as colorful pops of elegant decor, and can be repurposed and enjoyed long after the final flame.

A well-rounded combination of quality, artistry and global inspiration serve as the backbone of who we are. From our house, to your home...

THE FRESHLY CUT

ROSES COLLECTION

The Rose... the undisputed Queen of Flowers. The Roses Collection is a fragrant homage, inspired by this garden queen. Rose shines its beauty on all things, adding its essence to everything that it touches. A true muse, the strength of a rose also holds intoxicating fragrance; both aromatic and healing. It takes weeks of cultivating freshly-picked rose petals to be pressed into a single ounce of pure Rose Oil... making it "liquid gold." This coveted Rose Oil is your fountain of youth, mood elixir and a sweet aroma that lures you back to the throne. The candle glass was designed to emulate layered petals, each carved with a classic geometric cube pattern and are softly colored with a sheer iridescent glow to match real life petals. The colors range from deep red to velvety soft pink and are inspired by the delicate fragrance itself. All hail the Queen.
