KRINGLE CANDLE®

New Introductions

ABOUT US

When he was just sixteen, my father Mike Kittredge made a candle using canning wax, a milk carton and his old childhood crayons. This was the start of the Yankee Candle Company in 1969.

Forty years later, we founded Kringle Candle together in 2009 with the mission to make the world's best scented candles. After 14 years of research and development, I can confidently say we have accomplished that goal.

Mick Kittredge – President

At Kringle Candle, we believe in the transformative power of scent. That's why we offer a wide range of candle products that are sure to enhance any home decor. All of our candles are crafted with care using time-honored Kittredge family recipes, so you can trust in the quality and authenticity of each and every burn.

We use 100% soy wax and lead free cotton wicks for a clean burn. Our jars are easily repurposed as canister, vases and daylight holders.

Proudly made in the USA, our candles ship nationwide and internationally from Bernardston, Massachusetts.
