

Spring Summer 2020

MILKHOUSE CANDLE CO.

The Milkhouse blend of waxes is simple: pure beeswax and natural soy wax from soybeans grown in America's Midwest.

No artificial dyes are added and there is no lead in the wicks. Our blend of waxes provides a safe and clean-burning alternative to paraffin candles.

We're committed to spreading the message that soy wax and beeswax are healthy alternatives to paraffin wax, but we can't do it alone. Thank you for joining us on our journey and helping us fill America's homes with clean-burning soy and beeswax candles since 2002!

Creamery collection

The Creamery Collection is a long-standing favorite at Milkhouse. The collection pairs timeless design with a wide variety of fragrances.

HUTCHES

Milkhouse Candle Co. sign included!

\$500

book case hutch

\$800

prairie hutch

Do you need a way to display Milkhouse Candles in your store? These hutches are an eye catching way to keep these candles front and center!

Milkhouse Candle displays are furniture-grade wood cabinets that are handmade in Iowa. Both hutches come in 2 pieces and have 5 adjustable shelves.

Display hutches require a pallet to ship.

Hutch Program

- \$1,000 order qualifies for half off a book case hutch.
- \$1,500 order qualifies for half off a prairie hutch.

** Hutch must be ordered at the time of candle order.*

** Can't be combined with any other discounts, including 10% off \$1,500 order or more.*

MADE IN THE USA!

Milkhouse Tips & Tricks

Do not burn candles near anything that can catch fire, and place on a heat resistant surface. Keep candles out of reach of children and pets. Never leave a burning candle unattended. Keep burning candles away from drafts, vents, ceiling fans, and air currents. Always burn candles in a well-ventilated room.

For optimum performance, trim wicks after each burn. When trimming wicks, extinguish the flame, let the candle cool, and trim the wick to 1/4 inch before relighting.

Extinguish candle after 3-4 hours of burn, or when the wax pool reaches the sides of the jar. Discontinue use of a candle when 1/2 inch of wax remains at the bottom of the jar. This will prevent possible heat damage to the counter/surface or the candle container itself. Our candles are not intended for outdoor use. For optimum performance we recommend burning them indoors.

Fragrance melts have a clean release formula that won't stick to the sides of most warmers. Simply turn off the heat source, let solidify, and dump the solid wax unit in the trash.
