THE FRESHLY CUT

ROSES COLLECTION

The Rose... the undisputed Queen of Flowers. The Roses Collection is a fragrant homage inspired by this garden queen. Rose shines its beauty on all things, adding its essence to everything it touches. A true muse, the strength of a rose also holds intoxicating fragrance, both aromatic and healing. It takes weeks of cultivating freshly-picked rose petals to be pressed into a single ounce of pure Rose Oil... making it "liquid gold." This coveted Rose Oil is your fountain of youth, mood elixir and a sweet aroma that lures you back to the throne. The candle glass was designed to emulate layered petals, each carved with a classic geometric cube pattern and softly colored with a sheer iridescent glow to match real-life petals. The colors range from deep red to velvety soft pink and are inspired by the delicate fragrance itself. All hail the Queen.
