## Mesa

We're bringing topography to the table with this earth-inspired collection. "Mesa" is both an American geological formation and the Spanish word for table. Twelve fragrances in six complementary pairings invoke images of grand vistas. Each matte speckled ceramic vessel is topped with an embossed dust cover. Once you finish burning the candles, you can use them as a stackable cream and sugar pottery set!

# ACCESSORIES

Everyone knows the key to candle life is a well-maintained wick. If you didn't, now you do! *Insider tips:* Trim your wicks to 1/4" before each lighting for an even and clean burn. Once the wax has pooled to the edges of the vessel, extinguish your wick with our candle snuffer. Our wick trimmer and candle snuffer have a lovely shiny brass finish so you don't have to hide them away!

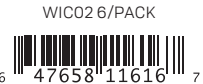

Never leave on a trip without a travelling light! Adding comfort, ambiance, and coziness to any location, these Element tins have become our go-to travel companion.
